

CASE EXAMPLES

Mr. Robinson is 60 years old and has had NHS dental care all his life. He does see the Hygienist 6 monthly and is happy to pay independently for this service. He realises maintaining his teeth is now becoming challenging as many are now heavily filled. On numerous occasions he has elected to have cosmetic white crowns and fillings done to preserve a smile he can be proud of. He also had to find an out of hours dentist after a fall and therefore required emergency treatment because NHS 111 were unable to help on this occasion. If he had been a dental care plan member he would have saved **£182.80**.

Treatment carried out	Fees paid	Plan fees
Examination April	£21.60	£0
Hygienist April	£55	£0
Examination October	£21.60	£0
Hygienist October	£55	£0
Large white filling	£150	£135
White ceramic crown	£600	£540
Dental injury visit	£250	£119 *
Yearly plan fees	-	£176.40
Total paid	£1153.20	£970.40

* This benefit is subject to Worldwide Dental Emergency Assistance Scheme terms and conditions

Mrs. Jackson is 40 years old. She has a limited income but continues to have check ups under the NHS and sees the Hygienist 6 monthly. She has begun a new job that makes it difficult for her to attend during normal NHS 9-5.30 working hours. Ideally she needs late evening appointments or weekends available to our plan and private patients. She wants to get her teeth straightened and whitened. She needs a crown and wishes to have an all ceramic, high aesthetic, hand crafted custom crown made by our visiting technician. If she had been a dental care plan member she would have saved **£506.80**. She can also pay for her treatment at 0% interest over 1 year.

Treatment carried out	Fees paid	Plan fees
Two examinations	£21.60 x 2	£0
Two Hygienist visits	£55 x 2	£0
Orthodontics	£3995	£3595
Enlighten whitening	£550	£495
Custom Ceramic crown	£750	£675
Yearly plan fees	-	£176.40
Total paid	£5448.20	£4941.40

BEXLEYHEATH DENTAL PRACTICE

Welcome to Bexleyheath Dental Practice. We are a busy, popular, friendly, family-run practice providing excellent dental care, in modern and comfortable surroundings.

We offer affordable cosmetic treatments as well as comprehensive care, focusing on preventative treatment and providing you with a great smile to give you the confidence and sense of well being you deserve. Our experienced team can enhance your smile with dental Implants, veneers, crowns and whitening treatments.

Our aim is to provide high quality care and treatment in a relaxed, comfortable and safe environment. We are committed to continuing education and keeping abreast of advances in modern dentistry. To ensure we maintain the high standards our patients have come to expect it is becoming increasingly important for us to accurately match the number and the needs of our patients to the resources we have available.

Research shows that preventative dentistry delivered on a regular basis greatly reduces the risk of dental disease and provides a platform for a lifetime of improved oral health. We encourage such an approach and with this in mind, we have designed a dental plan to reward our patients.

Our modern health promoting approach with continuing care means:

1. Fewer fillings
2. Less dental decay
3. Less likelihood of toothache
4. More attractive teeth
5. More choice
6. Reduced costs
7. Helping to keep your own teeth for life

The plan will provide advantages both to you and to us. It will allow us to plan your dental care more effectively and provide the best opportunity for keeping you dentally fit. The advantage for you is that it should reduce the need for future treatment and you will have the peace of mind that all of your preventive dental care will be covered by convenient monthly payments. Our plan also provides worldwide dental emergency and accident cover. In addition to this, our plan patients will receive an additional 10% discount on dental treatment provided at Bexleyheath dental practice and our sister practice The Sandford Implant and Cosmetic Centre.

SOME OF OUR AVAILABLE TREATMENTS

Dental implants will look natural and attractive because teeth will look and feel similar to those replaced. As a consequence, many patients report increased confidence.

Plan savings on this treatment
£220 - £1500

Facial aesthetics include anti-wrinkle treatments to smooth out lines and wrinkles, dermal fillers to enhance lips, cheeks and jaw lines, plasma injections to rejuvenate skin, as well as non-surgical thread face lifts to improve sagging.

Orthodontic treatment is used to improve the appearance, position and function of crooked or abnormally arranged teeth.

Plan savings on this treatment
£350 - £700

Cosmetic dentistry ranges from simple tooth whitening to multidisciplinary team care to help our patients wear the smile they deserve.

Mini smile makeover, utilising up to date techniques we can reshape, brighten and straighten teeth. Durable composite white filling materials are bonded to the teeth, enhancing smiles. This can often be done without the need for local anaesthetics and completed within a 2 hour appointment.
